Five Reasons for Directory Advertising

- 1.—Because the directory will bring the advertiser in touch with the entire population.
- 2.—Because directory advertising is recognized as the most effective and least expensive of any method of reaching all the people all the time.
- 3.—Because the directory is issued only once a year and your expenditure is based on advertising to cover the entire time.
- 4.—Because the directory circulates generally among all the people, although it may not be in use in the homes, yet every member of every home uses the directory in the nearest store or in the office or factory, almost daily.
- 5.—Because the directory is a credit and boost to a community because everybody is interested and represented in it.

The Science of Advertising

is the analysis, study, and practical use of the different forms of display and reference advertising publicity.

Display Advertising

does not often produce the desire to buy at the time it is seen. It plants a seed of suggestion, but when the desire is realized it may be hard to find the ad which suggested it. Then one naturally refers to the Directory.

Reference Advertising

places wherever people may look for you or your goods, information that will point to you like a signboard.

Your Advertisement

in this book, properly indexed under all headings which describe your business (which is equivalent to repeating the advertisement under each heading) is the greatest value for the money it is possible to get, when the nature and life of the medium is considered.

Putting the Out-of-the-way Business on the Main Street For a Few Dollars

The business that is up-stairs in some building or off the beaten trail can overcome its location—can put itself on the Main Street of Public Attention by advertising in the City Directory.

Your advertisement entitles you to be listed in heavy type under all of the classifications of your business in the new City Directory now being compiled. This makes your business **STAND OUT**. Thousands of people consult this buyers' guide every year.

Thus, for a very small sum you can be located on

The Main Street of your City Catalog
for a whole year.
